[Oliver Tiger Combat](#)

June 10th Fest of Flight Barkston

Vintage combat

June 24th South Bristol Gala Berkeley

Vintage combat

July 15th Barkston

Vintage combat

July 29th Old Warden

[Oliver Tiger combat](#)

August 25th,26th,27th Nats Barkston

All classes

Sept 9th Old Warden

Vintage combat

Oct 14th Waterbeach

Vintage combat

All enquiries to Mick Lewis 01453542367 or mick@combatflyers.co.uk

I am running the two Oliver events to try to stimulate interest. Please give me your support if at all possible.

F2D Contests These are provisional. Check with John James

22 April 2012 Venue to be confirmed but probably Albermarle

13 May 2012 Venue to be confirmed but probably Albermarle

10 June 2012 Barkston Festival of Flight

1 July 2012 first reserve date

15 July 2012 Barkston

16 September 2012 - Barton

7 October 2012 provisional date

21 October 2012 second reserve date

It has been a busy winter for some folks but for those of you who hibernated this is what has been going on. I will let Dave Wiseman explain.

Dominator Combat at the Barton Cold Turkey

Enthusiasm was high after Gordon Price started a thread on the Barton web site about a possible Dominator Combat model event. It seemed to get the Bygone days of combat stirring in many a combat flyer both old and new with memories of "The Good Old Days"

After many comments a date for battle was finally fixed and it was to be a winters day at the end of December at the BARTON COLD TURKEY in sunny Manchester!!!. The weather forecast was for cold, windy weather but even this did not deter the hardy Scottish contingent from travelling over the boarder to do Battle with the English on their home turf.

As it was the weather Gods were in good humour allowing the day to start off brisk, calm and sunny. But as the day developed and the battle continued the wind gained in power but the trusty Dominators battled on.

It was nice to see a good entry of 12 flyers on that battle field all equipped with Dominators, old and new, nice and well not so nice!!! But all prepared to do battle. Before the contest started it was decided to take a picture of all the models and pilots as we did not know how many would survive the battle. As it was ALL SURVIVED to fight another day but some with a few battle scars. Amongst the competitors were some truly lovely examples by Richard Houghton, Willy Wallace and John Cuthbert built with the same care you have placed on a team racer or as nice as any model built by Richard Evans (Who's absence was noted). Not only did these models look nice but they flew well. Especially

Willy's model, which would not have been put to shame by any current vintage model.

It was decided that as the day was a FUN day we would draw several rounds to give each entrant the same number of flights as opposed to a knock out with points being awarded, 3 for a win, 2 for a draw and 0 for a loss this way maximum enjoyment could be had by all.

Battle was soon under way with Nick Bridges taking on our current F2D British team leader. After a full 4 mins of combat Andrew came out the winner. Unfortunately Nick lost several points with time on the ground. It was nice to see evenly matched models doing battle in the sky even as the wind started to build.

Next to take to the sky was Dave Wiseman and Willy Wallace both with quick models but Dave's model could not match the manoeuvrability of Willy's Dominator and even when Willy had a sick motor run Dave still couldn't get that vital cut and after Willy dummied Dave into the ground the vital points were lost giving Willy the win.

Other notable bouts in the first round were Harry Walker and Tim Hobbins giving it all with Harry coming out the winner with 2 cuts and half an elevator off Tim's model. Gordon and Simon with both pilots getting cuts but Gordon getting 1 more and up on ground time and finally John Cuthbert with his Rothwell 250 power chasing Richard Houghton's lovely model but this time the old experience of Richard coming out on top after taking a nice cut and putting John into the ground a couple of times.

Lots of fun was had by all and we couldn't wait to have more bouts and not a single mid air collision all day, neither did any pilot fail to get the models in the air. In fact all the equipment worked well, how often could that be said. After 4 rounds of combat and 24 bouts two pilots shone above all others and these were the 2 marauding SCOTS. Andrew Shields and Gordon Price showing that whatever the event the cream always rises to the top (hopefully this is a good omen for the world champs as these are two of our British team members).

Both these pilots won all 4 of their bouts so it was the grand final. This is probably a good time to say that the model which Andrew was flying would normally have been consigned to the "SKIP" It was Old, Tatty, with a motor having about 10 degrees of offset and Gordon had given it to Andrew as SCRAP!!!. And so in the act of fairness Gordon flew his best, fastest, nicest model!!!!. The bout started with both models in the air at the start of the bell both pilots going all out for the win but try as he might Gordon just couldn't get the better of Andrew who flew steady and controlled and took the only cut, putting Gordon in the ground on a couple of occasions in the bout. Therefore Andrew Shields became the Winner of the event taking home to Scotland the Winners Medal.

I think it would be fair to say that despite the wind gaining pace and the cold starting to bite deep by the end of the day every one had a really good time and enjoyed every minute of it. But most of all it was good to see people like John Cuthbert, Chris Barker, Richard Houghton, Nick Bridges, Simon Timperley coming out of the wood work again to fly against other regular competitors. Long may it continue and I for one am looking forward to the next Barton DOMINATOR COMP at the Barton Bash. See you all there.

A Lovely Model by Willie Wallace. Flew as well as it looked

A Very nice model by Rich Houghton built to the high standards of his old Team

One of a brace of Models by Captain Dick

A Rothwell 250
powered Dominator by
John Cuthbert.
Beautifully built and

Lots of toys all ready to Battle

Harry Walkers
"Girly" Dominators,
Flew really well and
very manoeuvrable

Dave Wiseman's
"Dominatrix" ready
to give out some
punishment

A Field full of
enthusiastic Combat
flyers on a Cold Winters
day. What could be

Andrew Shields "WINNING MODEL" Just look at the off set on that motor. A least it didn't come in on the lines. Perhaps he will build a new one next year. If this one

These T-shirts are available from Richard Evans at £10 each plus p&p.

Nationals 2012

As many of you will know the World Champs this year clashes with the Nationals. This means that several pilots and organisers will not be able to attend the Nats. However we still intend to run all five classes.

Many thanks go to Dave Wiseman who is stepping into the shoes usually worn by John James as CD for F2E and F2D. Hope they are not too tight Dave!

Also there has been a BMFA rule change which will allow any started but unfinished classes to be completed at a later date as long as this is on or before the 4th Sunday in October. Let us hope this is not necessary in 2012.

For Sale

Pre-formed leading edges hollow or solid at £4 each plus p&p

1000 ft 15 thou 7 strand stainless lines at £40 plus p&p

Iron on Mylar 30 microns at £10 for 25 ft plus p&p

Ripstop nylon mainly green some gold at **50p a sq metre** plus p&p. Need space in cupboard!

I can bring any of the above to comps to save postage.

Contact me on 01453542367 or mick@combatflyers.co.uk

Well I can't think of anything else so TTFN
